There definitely is money available on the State Lab account. Do we have any idea how much the repair will be?

**Subject:** Amherst emergency repair

Hi All,

I just heard from Jim Hanchett in the Amherst Drug laboratory that one of the analytical balances is broken and in need of repair. Tom mentioned a few weeks ago that there was some available LL money (presumably on the 1000 account) that hopefully can be used for this service (and parts?). If not, we should have available funding on the revenue account (0263).

Jim will email an estimate once he has one.

Thanks, Julie
